RELIABLE TRAVEL INFORMATION

More and more passengers want better travel information about their journey, particularly if something unexpected occurs, such as a breakdown or changes in traffic.

MultiQ's digital departure, traffic and information solutions are designed to optimize the level of information from various public transport systems. They can also convey important information about upcoming or current irregularities in traffic.

Our solutions displays location - specific travel information, in real-time, for bus, metro, train and subway – all the way down to the local stop level.

The Info Monitors give passengers the opportunity to get relevant traffic and travel information where it is needed. These solutions are available with or without

an information field at the bottom of the monitor. The information field can be used to show relevant traffic information, such as route changes, road work, new timetables, local news, etc.

Departure information is updated automatically and retrieved from Rejseplanen's timetable data via mobile network.

TECHNOLOGY

The unit is designed for installation in existing poles, shelters, walls, etc. The tempered safety glass front is equipped with an effective filter which absorbs 99.96% of the harmful UV-radiation.

The display has a 178° viewing angle, temperature sensors and light sensor.

The built-in Media Controller is a powerful industrial PC built for 24/7 operation in harsh environments.

Specifications

DISPLAY	
Display size	19,5"
Aspect ratio	9:16
Resolution	900 × 1600
Visible area	236 mm × 434 mm
Brightness	Max. 1000 cd/m2
Contrast ratio	1000:1
MTBF (Backlight)	50,000 hours
CABINET	
Outer material	Aluminium
IP class	IP53
Front	Tempered glass
MEDIA PLAYER	
Type	Industry type for Transportation applications
Operating system	Windows Embedded Standard 7
CPU	AMD G-T56N Dual Core 1.65GHz
Memory	2G DRAM DDR3
Hard drive	SATA, 160 GB, 8M buffer, 24/7 operation
Network	LAN / MOBILE NETWORK
OPTIONS	
Internal speakers	Yes
Volume control	Yes, automatic adjustment
WiFi access point	Yes
MISCELLANEOUS	
Warranty	24 months
Power consumption	35 W
